THALICTRUM KYUSIANA

In all the world no other rock garden plant like this; beautiful foliage and flowers, it grows but three inches tall and is easy of cultivation; very rare.

.75 Each

IRIS GRACILIPES ALBA

The most beautiful of all Iris; looks like a Japanese Gold Bond Iris in miniature, growing but three inches tall with one and a half inch pure white blooms.

2.00 Each

MERTENSIA TWEEDYII

The smallest of all the blue bells, two inches high its tiny blue bells are rarely beautiful.

.75 Each

We guarantee, as usual, every plant to be true to name and delivery in good condition; claims must be made immediately on receipt, we cannot plant them for you.

In ordering please specify both name and number and you may have five of one variety for the price of four.

Stocks of some rare plants are limited; we do not sub, your order should include items that may be substituted.

Prices include delivery east of the Mississippi; for points west add 10% for extra packing and postage; we cannot ship orders for less than \$2.50.
